**International Smart Sustainable City Club (ISSCC) Conference - Forum on Carbon Neutrality –
22nd November 2022**

Document type	Related content	Document date	Expected action
General / Other		2022-09-27	INFO

Description

Dear All,

You will find here after the invitation for the Forum on Carbon Neutrality organized by ISSCC (International Smart Sustainable City Club).

This Forum will take place on the 22nd November 2022 from 11:00 to 15:00 CEST.

All ISO/TC 268 members are invited to participate in this event therefore please share this information within your national mirror committee.

The registration information is given in the document.

Let us know, should you have any questions.

Kind regards

Joanna

Pre-notice on the Sustainable Development Forum of Good Practices on Carbon Emission Peak and Carbon Neutrality & ISSCC 2022

General Assembly

Dear member cities and experts:

At the beginning of 2019, with the strong support of the ISO, UNEP, SAC, AFNOR and CNIS, the secretariat of the International Smart Sustainable City Club (ISSCC) officially launched in Hangzhou, China. In order to implement the United Nations' low-carbon goals of sustainable development and promote the study of good practices of carbon emission peak and carbon neutrality, the secretariat of ISSCC will hold the Sustainable Development Forum of Good Practices on Carbon Emission Peak and Carbon Neutrality & ISSCC 2022 General Assembly. You are hereby invited to attend the meeting.

This meeting is guided by ISO/TC268, AFNOR and SAC, supported by the governments of ISSCC member cities, and hosted by the Chinese Institute of Standardization and ISSCC.

For China, it is a broad and profound economic and social systematic change to achieve carbon emission peak down by 2030 and carbon neutral by 2060. It requires governments to take measures according to local conditions and implement targeted policies in energy, industry, transportation and urban & rural development. At the China Quality (Hangzhou) Conference held in September 2021, ISSCC organized the Parallel Session III on carbon neutrality. The forum shared international standards and leading experience, effectively promoted the systematization and standardization of top-level design in all fields of carbon neutrality, and was highly praised by experts and officials from home and abroad.

On the basis of the Parallel Session III of the 2021 China Quality Conference, ISSCC, together with ISO/TC268 and SAC/TC567, organized a collection activity of good practices of sustainable development on carbon emission peak and carbon neutrality in March this year. After five months of collection, more than 30 cases were received. Through discussion and review by the technical expert group, according to the relevance, social influence, innovation and other requirements on the cases, after more than ten times of field visits and nearly 20 online meetings, 12 cases were finally selected from the perspective of cities, communities, industries (agriculture, industry and service sectors). Therefore, ISSCC, ISO/TC268 and SAC/TC567 will organized this forum to discuss and share these cases with our member cities and experts.

The forum will invite representatives of member cities and pilot cities of ISSCC, providers of cases, experts in renewable energy and low-carbon clean technology, as well as representatives of international members and pilot cities of ISO/TC268 and ISSCC, experts from the United States, Japan, South Korea, Singapore and other countries to participate in the meeting. The forum is dedicated to achieving the carbon goals in a standardized form, and promotes communication and cooperation between ISSCC member cities and experts.

ISO Technical Committee for Standardization of Sustainable Cities and Communities
(ISO/TC268)

Dr. Bernard GINDROZ
Chairman of ISO TC268

National Technical Committee for Standardization of Sustainable City Development
(SAC/TC567)

Secretariat of the International Smart Sustainable City Club (ISSCC)

September 16, 2022

Annex:

1. Conference agenda (draft)
2. Registration receipt

Annex I

Conference Agenda (draft)

I. Date and time

November 22, 2022 (Tuesday)

ISSCC general assembly: 15:00-17:00 (9:00-11:00 CEST)

Forum on Carbon Neutrality: 17:00-21:00 (11:00-15:00 CEST)

II. Venue

International Standardization Conference Base (Hangzhou)

Address: No. 280, Minxin Road, 19th Floor, Block A, Ping'an Financial Center, Shangcheng District, Hangzhou

Access to global webinar to be decided.

III. Agenda

15:00-17:00 (GMT+8): 2022 ISSCC general assembly

1. Keynote speech by Chair of ISSCC;
2. ISSCC Secretariat reports the work of the Club in 2022;
3. Work exchange between member cities and pilot cities;
4. Comments from experts of the ISSCC and ISO/TC268.

17:00-21:00(GMT+8): Sustainable Development Forum of Good Practices on Carbon Emission Peak

1. Keynote speech by official of the SAC;
2. Keynote speech by officials of local governments;
3. Keynote speech by Chair of ISSCC;
4. Publishing of *Case Collection on Sustainable Development towards Carbon Emission Peak and Carbon Neutrality 2022*;
5. ISSCC plate awarding to case providers;
6. Introduction and sharing of good practices on carbon neutrality;
7. Speech by experts;
8. Meeting summary;

IV. Conference registration

Please send the registration receipt (annex II) to ISSCC before September 30.
